DECLARATION

This diluted fragrance ingredient has been assessed with reference to the IFRA 51st Amendment.

The supplied material contains approximately 1% Hazelnut Ketone in 99% Triacetin.

No universal maximum use level can be assigned from this statement alone. IFRA compliance must be determined using:

- The applicable IFRA product category.
- The finished fragrance concentration.
- The concentration of Hazelnut Ketone in the fragrance compound.
- Contributions from all other fragrance ingredients.
- The finished-product safety assessment.

IFRA Standards apply to finished fragrance applications rather than assigning one global use level for the raw material.

AROMOLGY

REPRESENTATIVE CONSTITUENTS REQUIRING REVIEW

Constituent	Representative Status
Hazelnut Ketone	1.0%
Triacetin	Approximately 99%
Other IFRA-Restricted Constituents	None intentionally added

CONDITIONS OF COMPLIANCE

Compliance requires:

- Selection of the appropriate IFRA category.
 - Review of finished-product concentration.
 - Consideration of all restricted ingredients within the complete fragrance.
 - Final toxicological assessment of the finished product.
-

CONCLUSION

Hazelnut Ketone 1% in Triacetin may be used in fragrance formulations subject to compliance with the applicable IFRA 51 Standards and finished-product safety assessment. No universal maximum use percentage is assigned.
