Category 12	Not Limited

These limits are published in an IFRA 51 conformity certificate for Heliotropex N (IFF product 30774581).

IFRA Restricted Constituents

The available IFF documentation identifies the following IFRA-restricted ingredients within Heliotropex N®:

Ingredient	CAS No.	Approximate Content
p-Methoxybenzaldehyde (Anisaldehyde)	123-11-5	5.30%
Propenyl Guaethol	94-86-0	0.50%
Cinnamyl Alcohol	104-54-1	0.10%
Helional (MMDHCA)	1205-17-0	0.10%
Isoeugenol	97-54-1	0.01%
Coumarin	91-64-5	0.01%
Anisyl Alcohol	105-13-5	0.005%
Cinnamal	104-55-2	0.001%

Additional Requirements

Compliance with IFRA Standards does not replace:

- Cosmetic Product Safety Assessment
 - EU Cosmetic Regulation (EC) No. 1223/2009
 - EU Regulation 2023/1545 fragrance-allergen assessment
 - Local regulatory requirements
 - Finished product stability testing
 - Toxicological evaluation
-

Declaration

Based on the available IFRA 51 documentation:

Heliotropex N® – IFF complies with the International Fragrance Association (IFRA) Standards through the 51st Amendment when used at or below the applicable maximum concentration for the intended IFRA product category.

Disclaimer

This IFRA Certificate is a representative supplier-style document prepared using publicly available IFRA 51 conformity information for Heliotropex N® – IFF. It is not the original manufacturer-issued IFRA Certificate. Before regulatory submission or commercial distribution, verify against the latest original IFF IFRA Certificate applicable to the product batch and destination market.
