PRODUCT INFORMATION

Item	Details
Product Name	Hexyl Acetate Natural
Chemical Name	Hexyl Acetate
CAS Number	142-92-7
EC Number	205-572-7
FEMA Number	2565
Product Type	Natural Aroma Chemical
IFRA Reference	51st Amendment
Issue Date	18 July 2026

DECLARATION

Hexyl Acetate Natural has been reviewed with reference to the IFRA Standards, 51st Amendment.

Based on the available IFRA Standards documentation, Hexyl Acetate is not identified as a material having a dedicated universal IFRA maximum-use Standard. The absence of a material-specific Standard does not remove the requirement to assess the complete fragrance formulation and finished-product application. IFRA's 51st Amendment documentation and Standards Library provide the applicable framework for category-based fragrance safety assessment.

REPRESENTATIVE COMPOSITION

Component	Representative Concentration
Hexyl Acetate	Minimum 98.0%
Related Natural Volatile Components	Maximum 2.0%
Added IFRA-Restricted Constituents	None intentionally added

AROMLOGY IFRA ASSESSMENT

Assessment Item	Status
Material-specific IFRA prohibition	Not identified
Material-specific IFRA restriction	Not identified
Material-specific IFRA specification	Not identified
Universal maximum use percentage	Not assigned
Finished-product category assessment	Required
Complete fragrance formula assessment	Required

CONDITIONS OF CONFORMITY

Compliance requires:

- Selection of the correct IFRA finished-product category.
- Review of the complete fragrance compound.
- Calculation of all restricted constituents contributed by every raw material.
- Consideration of impurities and secondary constituents.
- Compliance with the applicable finished-product exposure limits.
- A final safety assessment by the finished-product manufacturer.

IMPORTANT LIMITATION

This statement does not certify that Hexyl Acetate Natural may be used at any concentration in every application.

The technically acceptable level must be determined according to:

- Intended product type.
- Exposure route.
- Total fragrance concentration.
- Other ingredients in the formulation.
- Local cosmetic, detergent, household or consumer-product regulations.

CONCLUSION

Hexyl Acetate Natural may be used in fragrance formulations in accordance with the IFRA 51st Amendment, provided the complete fragrance and intended finished-product category are appropriately assessed. No universal IFRA maximum-use percentage is assigned in this statement.
