IFRA STATUS

Lavender Absolute is a Natural Complex Substance (NCS).

The material itself is not directly restricted by an individual IFRA Standard, however the finished fragrance must comply with the IFRA Standards by considering naturally occurring restricted constituents such as linalool, linalyl acetate, coumarin and other batch-dependent constituents.

CERTIFICATION

This material may be incorporated into fragrance formulations provided that:

- The finished fragrance complies with the IFRA Standards.
 - Naturally occurring restricted constituents are included in the safety assessment.
 - The intended IFRA product category is evaluated.
 - The manufacturer's current IFRA Certificate and analytical documentation take precedence.
-

AROMLOGY CONCLUSION

No product-specific IFRA 51 maximum use concentration has been established for Lavender Absolute as a raw material. Compliance shall be determined from the complete finished fragrance formulation and its naturally occurring constituents.
