Leather Extreme (Cypriol & Suede)

Product Identification

Item	Details
Product Name	Leather Extreme (Cypriol & Suede)
Manufacturer	IFF – International Flavors & Fragrances
Product Type	Proprietary Fragrance Base
INCI Name	Parfum
CAS Number	Proprietary Mixture
EC Number	Not Applicable (Mixture)
Physical Form	Liquid
Intended Use	Professional fragrance ingredient

IFRA Status

Leather Extreme (Cypriol & Suede) is a proprietary fragrance composition developed by IFF. The formulation contains a blend of aroma chemicals and/or natural materials that have been evaluated under the IFRA Code of Practice.

The product is designed to comply with the IFRA Standards (51st Amendment) when used within the limits established for the finished fragrance formulation.

Because the formulation is proprietary, the exact restricted constituents and their concentrations are confidential and are assessed by IFF as part of their regulatory evaluation.

IFRA Compliance Requirements

Compliance with the IFRA Standards depends upon:

- The concentration of Leather Extreme in the fragrance concentrate.

AROMOL O G Y

- The concentration of the fragrance concentrate in the finished consumer product.
- Contributions from all other fragrance ingredients containing IFRA-restricted constituents.
- The applicable IFRA product category.

Maximum permitted concentrations must therefore be established from the original manufacturer's IFRA Certificate or by formulation-specific IFRA calculations.

Representative IFRA Category Assessment

Finished Product Category	Maximum Use Level
Category 1	Subject to formulation-specific assessment
Category 2	Subject to formulation-specific assessment
Category 3	Subject to formulation-specific assessment
Category 4	Subject to formulation-specific assessment
Category 5A	Subject to formulation-specific assessment
Category 5B	Subject to formulation-specific assessment
Category 5C	Subject to formulation-specific assessment
Category 5D	Subject to formulation-specific assessment
Category 6	Subject to formulation-specific assessment
Category 7A	Subject to formulation-specific assessment
Category 7B	Subject to formulation-specific assessment
Category 8	Subject to formulation-specific assessment
Category 9	Subject to formulation-specific assessment
Category 10A	Subject to formulation-specific assessment
Category 10B	Subject to formulation-specific assessment
Category 11A	Subject to formulation-specific assessment
Category 11B	Subject to formulation-specific assessment
Category 12	Subject to formulation-specific assessment

Formulation Assessment Procedure

Before issuing an IFRA Certificate for a finished fragrance containing this material, the responsible formulator should:

1. Obtain the current IFF IFRA documentation.
 2. Verify the batch identity.
 3. Review all IFRA-restricted constituents.
 4. Calculate contributions from every fragrance ingredient.
 5. Apply the appropriate IFRA product category.
 6. Verify compliance with all applicable IFRA Standards.
 7. Complete the finished-product safety assessment.
-

AROM O L O G Y
Declaration

Leather Extreme (Cypriol & Suede) is suitable for professional fragrance formulation provided that:

- The finished fragrance complies with the current IFRA Standards (51st Amendment).
- All restricted constituents remain within the permitted exposure limits.
- The final cosmetic or consumer product is evaluated according to the relevant IFRA category.
- The complete safety assessment of the finished product has been performed.

This declaration:

- Does not establish universal maximum use percentages.
- Does not replace the original IFF IFRA Certificate.
- Does not certify compliance of a finished fragrance without formulation-specific calculations.
