SYMRISE RECOMMENDED USE

0.01–2.0%

Symrise gives this as the recommended perfumery use level. It is an olfactive/formulation recommendation and must not be represented as an IFRA maximum.

IMPORTANT INTERPRETATION

Final IFRA conformity depends on:

- Concentration of Mandaril in the fragrance
- Finished-product category
- Fragrance dosage in the finished product
- Restricted substances elsewhere in the formula
- Restricted constituents and impurities
- Natural Complex Substances
- Combined exposure
- Current applicable IFRA Standards

FORMAL DECLARATION

Based on the documentation reviewed:

MANDARIL – SYMRISE
PRODUCT NO. 600135

is suitable for professional fragrance formulation, but no authoritative Symrise-issued numerical IFRA 51 Category 1–12 table was located publicly.

A R O M O L O G Y

Therefore, the latest original Symrise IFRA regulatory documentation should prevail where a customer requires manufacturer-certified category limits.

DISCLAIMER

This is a supplier-style IFRA 51 regulatory declaration and is not an original Symrise or IFRA-issued Certificate of Conformity. No unsupported numerical category limits have been inserted.
