### PRODUCT INFORMATION

| Product Information | Details                   |
|---------------------|---------------------------|
| Product Name        | Methyl Ionone Gamma Coeur |
| Chemical Name       | Methyl Ionone Gamma Coeur |
| CAS Number          | 127-51-5                  |
| EC Number           | 204-846-3                 |
| Product Type        | Aroma Chemical            |
| Purity              | ≥95%                      |

### DECLARATION

Methyl Ionone Gamma Coeur is a high-purity methyl ionone material used extensively as an orris, violet and woody fragrance ingredient.

This material contains Alpha-Isomethyl Ionone (CAS 127-51-5), which is a fragrance ingredient subject to the IFRA Standards (51<sup>st</sup> Amendment). Compliance depends on the concentration of the ingredient in the finished fragrance and its intended IFRA application category.

### IFRA COMPLIANCE

| Requirement                     | Status                                                            |
|---------------------------------|-------------------------------------------------------------------|
| IFRA 51 <sup>st</sup> Amendment | Compliant when used within the applicable IFRA Category limits    |
| Ingredient Status               | Restricted fragrance ingredient                                   |
| Customer Responsibility         | Verify finished fragrance compliance for the intended application |

### CONDITIONS OF USE

This certificate is valid provided that:

#### **A R O M A T I C S**

- The ingredient is used exclusively as a fragrance raw material.
- The finished fragrance complies with the applicable IFRA Category limits.
- Contributions from all restricted fragrance ingredients are calculated cumulatively.
- The finished consumer product undergoes the required safety assessment.

#### **CONCLUSION**

Methyl Ionone Gamma Coeur – Orris complies with the IFRA 51st Amendment, provided it is used within the applicable IFRA limits for the intended finished-product category.
