NEROLIDOL NATURAL – EX CABREUVA

PRODUCT IDENTIFICATION

Parameter	Details
Product Name	Nerolidol Natural – Ex Cabreuva
INCI Name	Nerolidol Natural
CAS Number	7212-44-4
EC Number	230-597-5
FEMA Number	2772
Product Type	Natural Aroma Chemical / Natural Isolate
Botanical Source	Ex - Cabreuva
Applicable Framework	IFRA Standards through 51st Amendment

IFRA 51 STATUS

Available IFRA 51 documentation for:

NEROLIDOL, NATURAL
CAS 7212-44-4

states that the material:
DOES NOT APPEAR ON THE IFRA RESTRICTION / PROHIBITION / SPECIFICATION LIST

under the IFRA Standards up to and including the:
51ST AMENDMENT

Accordingly:
NO MATERIAL-SPECIFIC IFRA 51 RESTRICTION IS ASSIGNED TO NEROLIDOL NATURAL ITSELF.

A R O M O L O G Y

IFRA CATEGORY STATUS

IFRA Category	Nerolidol Natural Status
Category 1	Not restricted as such*
Category 2	Not restricted as such*
Category 3	Not restricted as such*
Category 4	Not restricted as such*
Category 5A	Not restricted as such*
Category 5B	Not restricted as such*
Category 5C	Not restricted as such*
Category 5D	Not restricted as such*
Category 6	Not restricted as such*
Category 7A	Not restricted as such*
Category 7B	Not restricted as such*
Category 8	Not restricted as such*
Category 9	Not restricted as such*
Category 10A	Not restricted as such*
Category 10B	Not restricted as such*
Category 11A	Not restricted as such*
Category 11B	Not restricted as such*
Category 12	Not restricted as such*

*No Nerolidol-specific IFRA Restriction, Prohibition or Specification Standard was identified through the 51st Amendment.

IMPORTANT INTERPRETATION

“Not restricted as such” does not mean:

- Recommended for use at 100%
- Suitable for direct undiluted skin application
- Automatically safe in all finished products
- Automatically compliant in every cosmetic category
- Exempt from toxicological assessment
- Exempt from regional cosmetic regulations

Final IFRA conformity must always be assessed on the complete fragrance formulation.

NATURAL ORIGIN

Nerolidol Natural ex Cabreuva is a naturally derived sesquiterpene alcohol isolated from Cabreuva oil fractions.

AROM OLOGY

Natural Cabreuva-derived Nerolidol may contain:

- Trans-Nerolidol
- Cis-Nerolidol
- Trace naturally occurring sesquiterpenes

The exact cis/trans ratio and minor composition depend on the source and manufacturing specification.

COMPLETE FORMULA ASSESSMENT

Final fragrance compliance must consider:

1. Nerolidol concentration
 2. Other aroma chemicals
 3. Essential oils
 4. Absolutes
 5. Natural complex substances
 6. Restricted impurities
 7. Applicable IFRA category
 8. Finished-product fragrance dosage
 9. Regional cosmetic legislation
-

FINE FRAGRANCE

For fine fragrance applications such as:

- Parfum
- Extrait de Parfum
- Eau de Parfum
- Eau de Toilette
- Cologne

Nerolidol itself has no specific IFRA 51 Category 4 limit under the reviewed conformity statement.

The actual formula must still comply with all other applicable IFRA Standards.

FORMAL DECLARATION

Based on the available IFRA 51 conformity documentation:

NEROLIDOL NATURAL – EX CABREUVA
CAS 7212-44-4

A R O M O L O G Y

is:

NOT SUBJECT TO A MATERIAL-SPECIFIC IFRA RESTRICTION, PROHIBITION OR SPECIFICATION

under the:

IFRA 51ST AMENDMENT

No category-specific numerical maximum is therefore assigned to Nerolidol Natural itself.

DISCLAIMER

This is a supplier-style IFRA 51 regulatory declaration.

The regulatory conclusion is based on a current Natural Nerolidol IFRA statement for CAS 7212-44-4 stating that the material does not appear on the IFRA Restriction/Prohibition/Specification List.

It is not an IFRA-issued certificate and does not replace full assessment of the complete fragrance formula.
