PRODUCT IDENTIFICATION

Item	Details
Product	Orris Absolute
Botanical Name	<i>Iris germanica</i> L.
CAS Number	8002-73-1
EC Number	289-955-4
Product Type	Natural Complex Substance
IFRA Version	51st Amendment

IFRA STATUS

Orris Absolute is a Natural Complex Substance (NCS) obtained from aged rhizomes of *Iris germanica*.

No dedicated IFRA Standard assigning a universal maximum use level specifically to Orris Absolute has been identified.

Accordingly, compliance with the IFRA 51st Amendment must be established from:

- Actual batch composition
- Naturally occurring restricted constituents
- Finished fragrance concentration
- Applicable IFRA Product Category
- Total contribution of restricted substances from the complete fragrance formula

Commercial documentation for orris fragrance materials similarly applies IFRA compliance based on the finished formulation rather than assigning a single unrestricted raw-material use level.

AROM OLOGY

Representative Naturally Occurring Constituents

Constituent	Status
α -Irone	Characteristic constituent
β -Irone	Characteristic constituent
γ -Irone	Characteristic constituent
Fatty Acid Esters	Naturally occurring
Aromatic Ketones	Naturally occurring

IFRA CATEGORY STATUS

IFRA Category	Maximum Use Level
Categories 1–12	Subject to constituent-based IFRA assessment

DECLARATION

Aromology Trading LLC declares that:

- Orris Absolute 4.5% Irones is a Natural Complex Substance.
 - No universal IFRA maximum concentration has been established specifically for this raw material.
 - Finished-product compliance requires assessment of the complete fragrance composition in accordance with the IFRA 51st Amendment.
 - Batch-specific GC/MS data should be used where available.
