AROM OLOGY

IFRA Category	Maximum Concentration
11B	100%
12	100%

These maximum concentrations are reproduced from the supplied IFRA 51st Amendment certificate.

IMPORTANT INFORMATION

The IFRA Standards provide guidelines for the safe use of fragrance ingredients and are based on evaluation of toxicological and dermatological data relating to ingredient concentrations and exposure levels in finished products.

The safety of a fragrance preparation containing this ingredient, including its presentation, labelling, packaging and instructions for use, must be established through an appropriate safety evaluation of the finished product.
