PRODUCT IDENTIFICATION

Item	Details
Product	Palmarosa Essential Oil
Botanical Name	<i>Cymbopogon martinii</i> var. <i>motia</i>
CAS Number	8014-19-5
EC Number	283-461-2
Product Type	Natural Complex Substance (NCS)
IFRA Version	51st Amendment

IFRA STATUS

Palmarosa Essential Oil is a Natural Complex Substance (NCS) obtained by steam distillation of the aerial parts of *Cymbopogon martinii*.

The essential oil itself is not subject to a dedicated IFRA Standard assigning one universal maximum use level. Compliance with the IFRA 51st Amendment depends upon:

- Batch-specific composition
- Naturally occurring restricted constituents (particularly Geraniol, Citral, Linalool and Farnesol)
- Finished fragrance concentration
- Applicable IFRA Product Category
- Combined contribution of restricted constituents from the complete fragrance formulation

Commercial IFRA documentation provides maximum finished-fragrance concentrations by IFRA category rather than a single unrestricted raw-material use level.

Representative Naturally Occurring Restricted Constituents

AROM O L O G Y

Constituent

Status

Geraniol	Major naturally occurring constituent
Citral	Naturally occurring
Linalool	Naturally occurring
Farnesol	Naturally occurring
Geranyl Acetate	Naturally occurring

DECLARATION

Aromology Trading LLC declares that:

- Palmarosa Essential Oil – Floral Rose is a Natural Complex Substance.
- Finished-product compliance shall be determined according to the IFRA 51st Amendment using the complete fragrance formula.
- Batch-specific GC/MS analysis should be used whenever available.
