IFRA COMPLIANCE STATEMENT

IFRA Standards – 51st Amendment

PRODUCT INFORMATION

Product Name: Patchoulol Crystals Natural 99.5%

Product Code: PL-001

Botanical Source: Ex - Patchouli

INCI Name: Pogostemon cablin extract

CAS Number: 5986-55-0

EC/EINECS Number: 227-807-2

Molecular Formula: C₁₅ H₂₆ O

Molecular Weight: 222.37 g/mol

Purity: Minimum 99.5%

Product Type: Natural isolate

Country of Origin: Indonesia

IFRA Amendment: 51st Amendment

SCOPE OF CERTIFICATE

This certificate assesses Patchoulol Crystals Natural 99.5% – Premium with reference to the International Fragrance Association Code of Practice and the IFRA Standards up to and including the 51st Amendment.

Patchoulol, CAS 5986-55-0, is not subject to a specific IFRA Standard establishing category-based maximum concentrations.

IFRA Category	IFRA 51 Status
Category 1	Not restricted by a specific Patchoulol Standard*
Category 2	Not restricted by a specific Patchoulol Standard*
Category 3	Not restricted by a specific Patchoulol Standard*
Category 4	Not restricted by a specific Patchoulol Standard*
Category 5A	Not restricted by a specific Patchoulol Standard*
Category 5B	Not restricted by a specific Patchoulol Standard*
Category 5C	Not restricted by a specific Patchoulol Standard*
Category 5D	Not restricted by a specific Patchoulol Standard*
Category 6	Not restricted by a specific Patchoulol Standard*
Category 7A	Not restricted by a specific Patchoulol Standard*
Category 7B	Not restricted by a specific Patchoulol Standard*
Category 8	Not restricted by a specific Patchoulol Standard*
Category 9	Not restricted by a specific Patchoulol Standard*

AROM OLOGY

IFRA Category	IFRA 51 Status
Category 10A	Not restricted by a specific Patchoulol Standard*
Category 10B	Not restricted by a specific Patchoulol Standard*
Category 11A	Not restricted by a specific Patchoulol Standard*
Category 11B	Not restricted by a specific Patchoulol Standard*
Category 12	Not restricted by a specific Patchoulol Standard*

*This status does not mean that the material can automatically be used at 100% in every finished consumer product. The finished formulation must still undergo an appropriate safety and regulatory assessment.

COMPOSITION RELEVANT TO IFRA ASSESSMENT

Constituent	CAS Number	Concentration	IFRA Status
Patchouli Alcohol/Patchoulol	5986-55-0	99.8%	No specific IFRA restriction
Other natural trace constituents	Various	Approximately 0.2%	Assess if any restricted substance is detected

DECLARATION

Aromology declares that:

- The material consists of a minimum of 99.5% natural Patchouli Alcohol.
- No synthetic fragrance ingredients have been intentionally added.
- No carrier, diluent or preservative has been intentionally added.
- Patchouli Alcohol is not listed as an individually restricted fragrance ingredient under the IFRA Standards, 51st Amendment.
- The material is intended for professional fragrance manufacture.
- The finished fragrance must be evaluated for IFRA compliance before commercial use.

FINISHED-PRODUCT RESPONSIBILITY

The finished-product manufacturer is responsible for:

- Selecting the correct IFRA category
- Establishing a technically suitable use concentration
- Reviewing the complete fragrance composition
- Assessing any restricted trace constituents
- Including contributions from all other raw materials
- Conducting an appropriate finished-product safety assessment
- Ensuring compliance with applicable legislation

LIMITATIONS

A R O M O L O G Y

This certificate:

- Applies only to Patchoulol Crystals Natural 99.5% – Premium
- Does not certify a finished fragrance or cosmetic product
- Does not replace a complete safety assessment
- Does not authorise food, pharmaceutical or internal use
- Must be reviewed if the composition or IFRA Standards change
