PRODUCT INFORMATION

Parameter	Details
Product Name	Phenyl Ethyl Acetate Natural
Alternative Name	Phenethyl Acetate Natural
Chemical Name	2-Phenylethyl Acetate
CAS Number	103-45-7
EC Number	203-113-5
Molecular Formula	C ₁₀ H ₁₂ O ₂
Product Type	Natural Aroma Chemical
IFRA Reference	51st Amendment

IFRA STATUS

Based on the identity and representative composition of this material, Phenyl Ethyl Acetate Natural is not known to be subject to an individual IFRA prohibition, restriction or specified maximum concentration under the IFRA 51st Amendment.

Accordingly, no substance-specific IFRA maximum-use level is assigned to Phenyl Ethyl Acetate itself.

This does not mean that the material may be used without limitation in every finished product. The safe concentration remains dependent upon:

- The intended consumer product
- The applicable IFRA product category
- The complete fragrance formulation
- The purity of the supplied material
- Any restricted impurities or secondary constituents
- The toxicological assessment of the finished product
- Applicable cosmetic, chemical and consumer-product legislation

IFRA CATEGORY STATUS

AROM O L O G Y

IFRA Category

Maximum Level for Phenyl Ethyl Acetate Natural

Category 1	Not specifically restricted by an individual IFRA Standard
Category 2	Not specifically restricted by an individual IFRA Standard
Category 3	Not specifically restricted by an individual IFRA Standard
Category 4	Not specifically restricted by an individual IFRA Standard
Category 5A	Not specifically restricted by an individual IFRA Standard
Category 5B	Not specifically restricted by an individual IFRA Standard
Category 5C	Not specifically restricted by an individual IFRA Standard
Category 5D	Not specifically restricted by an individual IFRA Standard
Category 6	Not specifically restricted by an individual IFRA Standard
Category 7A	Not specifically restricted by an individual IFRA Standard
Category 7B	Not specifically restricted by an individual IFRA Standard
Category 8	Not specifically restricted by an individual IFRA Standard
Category 9	Not specifically restricted by an individual IFRA Standard
Category 10A	Not specifically restricted by an individual IFRA Standard
Category 10B	Not specifically restricted by an individual IFRA Standard
Category 11A	Not specifically restricted by an individual IFRA Standard
Category 11B	Not specifically restricted by an individual IFRA Standard
Category 12	Not specifically restricted by an individual IFRA Standard

“Not specifically restricted” is not the same as an unlimited recommended dosage. Use must be supported by the finished-product safety assessment and good manufacturing practice.

COMPOSITION CONSIDERATIONS

The representative product consists predominantly of:

Component	Representative Status
Phenyl Ethyl Acetate	Principal constituent
Phenethyl Alcohol	Minor natural-process constituent
Acetic Acid	Possible trace constituent
Other process-related constituents	Trace, batch dependent

Any constituent subject to a separate IFRA Standard must be included in the quantitative compliance calculation for the complete fragrance formulation.

DECLARATION

Aromology Trading LLC declares that, based on the representative identity and composition available:

1. Phenyl Ethyl Acetate Natural is suitable for use as a professional fragrance ingredient.

A R O M O L O G Y

2. The material is not known to be independently restricted by a substance-specific IFRA Standard under the 51st Amendment.
3. No fixed universal use percentage is assigned by this certificate.
4. The manufacturer of the finished fragrance is responsible for determining the relevant IFRA category.
5. The complete fragrance formula must be reviewed for all restricted ingredients and impurities.
6. Compliance must be reassessed whenever the formula, product application or applicable IFRA Standard changes.

IMPORTANT LIMITATION

This certificate applies only to the material identified above and does not constitute an IFRA Certificate of Conformity for any finished fragrance compound or consumer product.

The original manufacturer's current IFRA documentation and batch-specific composition shall take precedence where available.
