PRODUCT INFORMATION

Parameter	Details
Product Name	Premium Jasmine Grandiflorum Absolute
Botanical Name	<i>Jasminum grandiflorum</i> L.
INCI Name	Jasminum Grandiflorum (Jasmine) Flower Extract
Plant Part	Fresh Flowers
Extraction Method	Solvent Extraction
Product Type	Natural Complex Substance
Country of Origin	Italy
CAS Number	8022-96-6
EC Number	283-993-5
FEMA Number	2598
IFRA Amendment	51st Amendment

SCOPE OF CERTIFICATE

This certificate assesses Premium Jasmine Grandiflorum Absolute with reference to the IFRA Standards up to and including the 51st Amendment.

The material is a Natural Complex Substance. Its composition varies between batches and may contain naturally occurring substances subject to individual IFRA Standards.

Published IFRA 51 certificates for Jasmine Grandiflorum Absolute show materially different category limits because the concentrations of benzyl alcohol, benzyl benzoate, eugenol, p-cresol and other constituents differ between sources and batches.

IFRA STATUS

Premium Jasmine Grandiflorum Absolute is subject to the IFRA Standard for:

Jasmine Absolute (Grandiflorum)

AROM OLOGY

Representative CAS numbers associated with this material include:

- 8022-96-6;
- 84776-64-7;
- 8024-43-9; and
- 90045-94-6.

The raw material may also contain other substances having their own IFRA Standards.

POTENTIALLY RESTRICTED NATURALLY OCCURRING CONSTITUENTS

Constituent	CAS Number	Regulatory Consideration
Jasmine Absolute (Grandiflorum)	8022-96-6	Subject to an IFRA Standard
Benzyl Alcohol	100-51-6	Batch-dependent IFRA contribution
Benzyl Benzoate	120-51-4	Batch-dependent IFRA contribution
Eugenol	97-53-0	Restricted constituent
p-Cresol	106-44-5 / 1319-77-3	May be present; batch dependent
Linalool	78-70-6	Oxidation and sensitisation considerations
Farnesol	4602-84-0	Declarable allergen; batch dependent
Methyl Anthranilate	134-20-3	Batch-dependent regulatory consideration

Representative supplier certificates have reported benzyl alcohol, benzyl benzoate and eugenol as IFRA-relevant constituents of Jasmine Grandiflorum Absolute.

IFRA CATEGORY ASSESSMENT

IFRA Category	Maximum Permitted Level
Category 1	Batch-specific supplier IFRA certificate required
Category 2	Batch-specific supplier IFRA certificate required
Category 3	Batch-specific supplier IFRA certificate required
Category 4	Batch-specific supplier IFRA certificate required
Category 5A	Batch-specific supplier IFRA certificate required
Category 5B	Batch-specific supplier IFRA certificate required
Category 5C	Batch-specific supplier IFRA certificate required
Category 5D	Batch-specific supplier IFRA certificate required
Category 6	Batch-specific supplier IFRA certificate required
Category 7A	Batch-specific supplier IFRA certificate required
Category 7B	Batch-specific supplier IFRA certificate required
Category 8	Batch-specific supplier IFRA certificate required
Category 9	Batch-specific supplier IFRA certificate required
Category 10A	Batch-specific supplier IFRA certificate required
Category 10B	Batch-specific supplier IFRA certificate required
Category 11A	Batch-specific supplier IFRA certificate required

AROMOL O G Y

Category 11B

Batch-specific supplier IFRA certificate required

Category 12

Batch-specific supplier IFRA certificate required

No universal category-specific figures are assigned in this document because doing so without the actual batch composition could produce an incorrect or unsafe certificate.

COMPLIANCE CALCULATION

For every restricted constituent, calculate its concentration in the finished product as follows:

Restricted Constituent in Finished Product (%) =

Jasmine Absolute in Finished Product (%) $\times$ Restricted Constituent in Jasmine Absolute (%) $\div$ 100

The contribution of the same constituent from every other fragrance ingredient in the finished formulation must be included.

DECLARATION

Based on the available representative information:

1. Premium Jasmine Grandiflorum Absolute is not prohibited for all fragrance applications.
2. It is subject to restrictions under the IFRA Standards.
3. The applicable maximum use level depends on the actual batch composition and intended IFRA category.
4. Compliance must be established using the original producer's batch-specific IFRA 51 Certificate and analytical data.
5. Use of the material must not exceed the most restrictive applicable limit arising from any individual constituent.
6. This certificate does not establish compliance for a finished perfume, cosmetic or household product.

RESPONSIBILITY OF THE FINISHED-PRODUCT MANUFACTURER

The finished-product manufacturer is responsible for:

- Determining the correct IFRA category;
- Confirming the precise concentration of the absolute;
- Obtaining batch-specific constituent information;
- Calculating all restricted constituent contributions;
- Considering contributions from all other ingredients;
- Completing the finished-product safety assessment; and
- Ensuring compliance with applicable IFRA and legal requirements.

A R O M O L O G Y

LIMITATION OF CERTIFICATE

This document:

- Applies only to the material identified above;
 - Does not replace the original producer's IFRA certificate;
 - Does not certify a finished formulation;
 - Does not authorise food, pharmaceutical or therapeutic use;
 - Does not apply to diluted, blended or modified versions unless separately assessed; and
 - Must be reviewed when the IFRA Standards or product composition changes.
