Raspberry Leaf Absolute Extra

PRODUCT IDENTIFICATION

Parameter	Details
Product Name	Raspberry Leaf Absolute Extra 50% ETH
Botanical Name	<i>Rubus idaeus</i> L.
CAS Number	84929-76-0
Product Type	Natural Complex Substance (NCS) diluted with Ethanol
IFRA Standard	51st Amendment

IFRA ASSESSMENT

Raspberry Leaf Absolute is a Natural Complex Substance (NCS) obtained from the leaves of *Rubus idaeus*. As a botanical extract, its composition naturally varies according to origin, harvest, extraction method and production batch.

Based on the IFRA 51st Amendment, there is no individual IFRA Standard specifically restricting Raspberry Leaf Absolute (CAS 84929-76-0).

The presence and concentration of any IFRA-restricted constituents, if naturally occurring, should be confirmed by batch-specific GC/MS analysis and considered when evaluating the finished fragrance.

The ethanol used as the diluent does not introduce any IFRA fragrance-use restrictions.

IFRA DECLARATION

- Raspberry Leaf Absolute is considered a Natural Complex Substance (NCS).
- No specific IFRA prohibition or concentration limit currently applies to this raw material.

A R O M O L O G Y

- Batch-to-batch natural variation is expected.
- Compliance of the finished fragrance must consider all ingredients and naturally occurring restricted constituents.
- The finished-product manufacturer is responsible for final IFRA compliance.

IFRA CATEGORY STATUS

IFRA Categories 1–12	Status
-----------------------------	---------------

Categories 1–12	No specific restriction established for the raw material*
-----------------	---

*Subject to evaluation of naturally occurring restricted constituents in the finished formulation.
