IFRA COMPLIANCE STATEMENT

IFRA Standards – 51st Amendment

PRODUCT INFORMATION

Product Name: Rhubarb Absolute Extract

Alternative Name: Rhubarb Extract

Botanical Name: Rheum officinale

INCI Name: Rheum Officinale Root Extract

Primary CAS Number: 8016-55-5

Additional CAS Numbers: 84650-56-6; 90106-27-7

Plant Part: Root

Extraction Method: Solvent extraction using food-grade ethanol

Country of Origin: Indonesia

Product Type: Natural botanical absolute extract

IFRA DECLARATION

Rhubarb Absolute Extract – Fruity Boozy is considered compliant with the principles of the International Fragrance Association Code of Practice and the IFRA Standards under the 51st Amendment when used in accordance with all applicable Standards.

As this is a natural botanical extract, it may contain naturally occurring constituents subject to individual IFRA Standards. Compliance of the finished fragrance or consumer product must be established by calculating the contribution of each restricted constituent from every ingredient in the complete formulation.

TYPICAL NATURALLY OCCURRING IFRA-RELEVANT CONSTITUENTS

Constituent	CAS Number	Typical Maximum Content
Linalool	78-70-6	≤0.30%
Limonene	5989-27-5	≤0.20%
Citral, total neral and geranial	5392-40-5	≤0.10%
Geraniol	106-24-1	≤0.05%
Eugenol	97-53-0	≤0.02%

These are typical compositional values and not batch-specific analytical results. Natural variations may occur due to the botanical source, harvest, geographical origin and extraction conditions.

MAXIMUM USE LEVELS

A universal maximum use level cannot be assigned to this natural extract independently of the finished fragrance formula.

AROM O L O G Y

The appropriate maximum concentration for each IFRA product category must be calculated using:

- The actual batch composition
- The concentration of restricted constituents
- Contributions from all other fragrance ingredients
- The intended IFRA finished-product category
- Any applicable restriction, specification or prohibition Standards

This statement does not replace a formula-specific IFRA Certificate of Conformity for the finished fragrance mixture.

STORAGE

Store in a tightly closed original container at 15–25 °C. Protect from heat, moisture, air, oxidising materials and direct sunlight.

CERTIFICATION STATEMENT

To the best of current knowledge, Rhubarb Absolute Extract – Fruity Boozy may be used in fragrance formulations subject to compliance with the applicable IFRA 51st Amendment Standards and category-specific calculations.
