Veramoss®

Product Identification

Item	Details
Product Name	Veramoss®
Manufacturer	International Flavors & Fragrances (IFF)
Chemical Name	Methyl 2,4-dihydroxy-3,6-dimethylbenzoate
Synonym	Evernyl®, Methyl Atratate
CAS Number	4707-47-5
EC Number	225-193-0
Molecular Formula	C ₁₀ H ₁₂ O ₄
Product Type	Aroma Chemical
Physical Form	Crystalline Solid
INCI Name	Parfum

IFRA Compliance Statement

According to the published IFF IFRA 51 Ingredients Declaration, Veramoss®:

- Does not contain any ingredient prohibited by the IFRA Code of Practice through the 51st Amendment.
- Uses any ingredient subject to an IFRA Specification only where the applicable quality criteria are met.
- Contains the following substance for which an IFRA restriction standard exists:

Ingredient	CAS Number	Maximum Concentration
Toluene	108-88-3	0.005%

The reported concentration includes intentionally added material, natural components, and synthetic impurities in accordance with the IFF declaration.

IFRA Use Level

Veramoss® itself has no ingredient-specific IFRA maximum use percentage.

The permissible concentration in a finished fragrance depends upon:

- The complete fragrance formulation.
 - The concentration of Veramoss® used.
 - Contributions from all other IFRA-restricted ingredients.
 - The applicable IFRA finished-product category.
-

Representative IFRA Category Assessment

IFRA Finished Product Category	Maximum Use Level
Categories 1–12	No ingredient-specific restriction for Veramoss®; finished fragrance must comply with the applicable IFRA Standards and all relevant restricted-substance limits.

Compliance Procedure

Before issuing an IFRA Certificate for a finished fragrance:

1. Review the current batch documentation.
 2. Calculate contributions from all IFRA-restricted substances present in every fragrance ingredient.
 3. Apply the relevant IFRA finished-product category.
 4. Complete the finished-product safety assessment.
 5. Verify compliance with the current IFRA Standards.
-

Declaration

Veramoss® may be incorporated into fragrance formulations in accordance with the IFRA Standards (51st Amendment) provided that:

- The finished fragrance complies with all applicable IFRA Standards.
- Cumulative concentrations of restricted substances remain within the permitted limits.
- The finished consumer product is evaluated for the appropriate IFRA category.

This declaration:

A R O M O L O G Y

- Does not replace the original IFF IFRA Certificate.
- Does not establish a universal maximum use percentage.
- Applies only to the identified raw material.
- Does not certify compliance of a finished fragrance without formulation-specific calculations.
