IFRA COMPLIANCE STATEMENT

IFRA Standards – 51st Amendment

PRODUCT IDENTIFICATION

Product Name: Yuzu Essential Oil Premium, Expressed

Botanical Name: Citrus junos Siebold ex Tanaka

INCI Name: Citrus Junos Peel Oil

CAS Number: 233683-84-6

EC Number: 639-006-9

FEMA Number: 4862

Extraction Method: Cold Expression

Plant Part: Fresh Fruit Peel

Country of Origin: Japan

Product Content: 100% Pure and Natural

IFRA CONFORMITY DECLARATION

We certify that Yuzu Essential Oil Premium, Expressed complies with the Standards of the International Fragrance Association up to and including the 51st Amendment, published in June 2023.

The following maximum-use status applies:

IFRA Category	Maximum Level in Finished Product
Category 1	Not restricted
Category 2	Not restricted
Category 3	Not restricted
Category 4	Not restricted
Category 5A	Not restricted
Category 5B	Not restricted
Category 5C	Not restricted
Category 5D	Not restricted
Category 6	Not restricted
Category 7A	Not restricted
Category 7B	Not restricted
Category 8	Not restricted
Category 9	Not restricted
Category 10A	Not restricted
Category 10B	Not restricted
Category 11A	Not restricted

AROMOLOGY

IFRA Category	Maximum Level in Finished Product
Category 11B	Not restricted
Category 12	Not restricted

INTERPRETATION

“Not restricted” means that the material is not subject to a quantitative maximum-use restriction under a product-specific IFRA Standard in the stated category.

It does not remove the requirement to consider:

- Finished-product safety
- Normal formulation practice
- Skin sensitisation
- Allergen labelling
- Oxidation stability
- Phototoxicity
- Applicable cosmetic legislation

IFRA-REGULATED OR SPECIFICATION-CONTROLLED CONSTITUENTS

Constituent	CAS Number(s)	Approximate Content	IFRA Status
Limonene	138-86-3; 5989-27-5; 5989-54-8; 7705-14-8	Approximately 70%; up to 78% reported	IFRA peroxide specification
Linalool	78-70-6	Approximately 2.4–2.6%	IFRA oxidation specification
Carvone	99-49-0; 2244-16-8; 6485-40-1	Trace	Restricted constituent/specification applies

PEROXIDE SPECIFICATION

Due to the high natural Limonene content, peroxide formation must be controlled.
The peroxide value should be maintained at the lowest practical level and should not exceed:
20 millimoles of active oxygen per litre
Appropriate antioxidants may be used where technically necessary and legally permitted.
Containers should be kept tightly closed and protected from heat, air and light.

PHOTOTOXICITY

Available product information indicates that Yuzu oil may contain up to approximately 15 ppm of phototoxic substances.

Yuzu Essential Oil is not currently subject to a specific quantitative IFRA phototoxicity restriction. Nevertheless, the finished-product safety assessor should consider the analytical furocoumarin content of the supplied batch, particularly for leave-on products exposed to ultraviolet light.

A R O M O L O G Y

ORAL-EXPOSURE CATEGORIES

Use in Categories 1 and 6 may result in incidental oral exposure.

This IFRA Certificate does not independently establish flavour-use approval. A separate flavour or food-regulatory assessment may be required.

REGULATORY LIMITATIONS

This certificate:

- Applies only to the identified material.
- Covers IFRA Standards through the 51st Amendment.
- Does not replace a comprehensive safety assessment.
- Does not replace the EU Allergen Declaration.
- Does not guarantee suitability for every application.
- Does not establish food or flavour approval.
- Requires the customer to evaluate cumulative restricted constituents.
- Requires compliance with good manufacturing practice.

CERTIFICATION

Product: Yuzu Essential Oil Premium, Expressed (Japan)

IFRA Status: Conforms to IFRA 51

Category 4 Status: Not restricted

Overall Status: APPROVED

Issue Date: 09/07/2025

Expiry/Review Date: 09/07/2028

The IFRA status and Japanese compositional information are supported by current Japanese Yuzu regulatory data and the official IFRA 51 documentation.
