IFRA Certificate of Conformity for Ingredients/Bases

This data sheet cancels and replaces all previously issued sheets for this product.

FRAISE 184075 D

This certificate provides information on the compliance of the above mentioned fragrance ingredient/base according to the Standards of the International Fragrance Association (IFRA), up to and including the 51st Amendment (published June 2023). This fragrance ingredient/base may also contain ingredient(s) that have been evaluated in accordance with the IFRA Guidance on Safety Evaluation of Fragrance Materials.

1. Maximum permitted concentration in the final product

These limits may not be valid if our fragrance ingredient/base is used in conjunction with other materials that also contain these restricted substances. The total concentrations in the final product of all restricted substances should be taken into account when determining the maximum concentration permitted by IFRA.

IFRA 51 Category	IFRA 51 Product Type	IFRA 51 Level of use
1	Products applied to the lips	Not Permitted
2	Products applied to the axillae	No Restriction
3	Products applied to the face/body using fingertips	No Restriction
4	Products related to fine fragrance	No Restriction
5A	Body lotion products applied to the body using the hands (palms), primarily leave-on	No Restriction
5B	Face moisturizer products applied to the face using the hands (palms), primarily leave-on	No Restriction
5C	Hand cream products applied to the hands using the hands (palms), primarily leave-on	No Restriction
5D	Baby creams, baby oils and baby talc	No Restriction
6	Products with oral and lip exposure	Not Permitted
7A	Rinse-off products applied to the hair with some hand contact	No Restriction
7B	Leave-on products applied to the hair with some hand contact	No Restriction
8	Products with significant ano-genital exposure	No Restriction
9	Products with body and hand exposure, primarily rinse-off	No Restriction
10A	Household care products with mostly hand contact	No Restriction
10B	Household care products with mostly hand contact, including aerosol/spray products (with potential leave-on skin contact)	No Restriction

Disclaimer: This Certificate provides restrictions for use of the specified product based on those materials restricted by IFRA Standards for the toxicity endpoint(s) described in each Standard, as well as ingredient(s) that have been evaluated in accordance with the IFRA Guidance on Safety Evaluation of Fragrance Materials. This certificate does not provide certification of a comprehensive safety assessment of all product constituents.

IFRA 51 Category	IFRA 51 Product Type	IFRA 51 Level of use
11A	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure	No Restriction
11B	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure	No Restriction
12	Products not intended for direct skin contact, minimal or insignificant transfer to skin	No Restriction

Please note that in some cases a fragrance ingredient/base can be banned only in Categories 1 and 6 while it is limited or free of use in other categories. This is due to the presence of one or several ingredients that are not Generally Recognized As Safe (GRAS). These will not be indicated in section 2.1.
Peroxide levels are in compliance with IFRA and EU requirements.

2. Ingredients that are banned or limited by IFRA

Section 2.1 lists ingredients that are banned by IFRA either because they are banned outright or because they contain constituent substances (components of natural complex materials or impurities in synthetic fragrance materials) that exceed purity limits set by IFRA.
Section 2.2 lists ingredients or substances that are restricted by IFRA. In cases where section 2.1 indicates that the fragrance ingredient/base is banned by IFRA, we are still providing information on ingredients and substances that are subject only to quantitative limits as these may determine the limits of compliance once the banned ingredient has been removed.
For further information on the IFRA Standards relating to these ingredients, they can be found on www.ifraorg.org or by request from us.

2.1. Ingredients and substances banned by IFRA

Name	CAS #	Quantity in fragrance ingredient/base

2.2. Ingredients and substances subject to limitations by IFRA

Name	CAS #	Quantity in fragrance ingredient/base
BENZALDEHYDE	100-52-7	0.0032 %
BENZYL ALCOHOL	100-51-6	0.0032 %
BENZYL BENZOATE	120-51-4	0.0004 %

Disclaimer: This Certificate provides restrictions for use of the specified product based on those materials restricted by IFRA Standards for the toxicity endpoint(s) described in each Standard, as well as ingredient(s) that have been evaluated in accordance with the IFRA Guidance on Safety Evaluation of Fragrance Materials. This certificate does not provide certification of a comprehensive safety assessment of all product constituents.

3. Substances, which may have some potential to form nitrosamines in the presence of nitrosating systems

Some materials have been identified as having a potential for forming nitrosamines in nitrosating systems. We are notifying you of the presence of any of these in order to ensure that it is not used in conjunction with agents that could lead to the formation of a nitrosamine.

Name	CAS#	Quantity in fragrance ingredient/base
ISOBUTYL N-METHYLANTHRANILATE	65505-24-0	14.4000

Please contact us for clarification or in case any restrictions are potentially problematic for compliance.

APPENDIX FOR IFRA 51 CATEGORIES

Category	Description
1	Children's toys — Lip Products of all types (solid and liquid lipsticks, balms, clear or colored, etc.)
2	Body sprays (including body mist) — Deodorant and antiperspirant products of all types including any product with intended or reasonably foreseeable use on the axillae or labelled as such (spray, stick, roll-on, under-arm, deo-cologne, etc.)
