Declaration

This certificate confirms that Strawberry Gum Oil is supplied as a natural perfumery raw material intended for incorporation into fragrance compounds.

Strawberry Gum Oil is obtained from the leaves of *Eucalyptus olida* and possesses a unique sweet fruity profile reminiscent of strawberry jam, wild berries and confectionery with delicate fresh herbal nuances.

Based on the IFRA Standards (51st Amendment) and currently available toxicological information, Strawberry Gum Oil (CAS No. 1174404-39-7) is not specifically prohibited or restricted as an individual raw material.

This material may therefore be incorporated into fragrance compounds provided that the finished fragrance complies with the applicable IFRA Standard for the intended product category, taking into account any naturally occurring regulated constituents.

Naturally Occurring IFRA-Relevant Constituents

This material may naturally contain trace quantities of:

- Limonene
- Linalool
- Citral

The concentration of these naturally occurring constituents may vary according to harvest season and production batch.
