Declaration

This certificate confirms that Styrax Essential Oil Vulcain is supplied as a natural perfumery raw material intended for incorporation into fragrance compounds.

Styrax Essential Oil is obtained by steam distillation of the aromatic resin of *Liquidambar orientalis* and possesses a rich balsamic, resinous, leathery, smoky and vanilla-like character, making it highly valued in amber, leather, incense, oriental and woody fragrance accords.

Based on the IFRA Standards (51st Amendment) and currently available toxicological information, Styrax Essential Oil Vulcain (CAS No. 8046-19-3) is not specifically prohibited or restricted as an individual fragrance ingredient.

The material may therefore be used in fragrance compounds provided that the finished fragrance complies with the applicable IFRA Standard for the intended product category, taking into account naturally occurring constituents that may themselves be subject to IFRA restrictions.

Naturally Occurring IFRA-Relevant Constituents

This material may naturally contain:

- Benzyl Benzoate
- Benzyl Cinnamate
