1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name	:	AMBRETTE OIL LMR
Sales Number	:	00012159
SDS Number	:	R00000109611
Use of the Substance/Mixture	:	Fragrance for consumer product
Company	:	IFF LMR Naturals Parc Industriel Les Bois de Grasse 18-20 avenue Joseph Honoré Isnard 06130 Grasse
Telephone	:	+33492424344
Emergency telephone number	:	+33 3 8073 7878

2. HAZARDS IDENTIFICATION

GHS-Classification

Flammable liquids, Category 4
Skin corrosion/irritation, Category 3
Skin sensitisation, Sub-category 1B
Short-term (acute) aquatic hazard, Category 2
Long-term (chronic) aquatic hazard, Category 2

GHS-Labelling

Symbol(s) :

Signal word : Warning

Hazard statements :
H227: Combustible liquid.
H316: Causes mild skin irritation.
H317: May cause an allergic skin reaction.
H411: Toxic to aquatic life with long lasting effects.

Precautionary statements :
P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P261: Avoid breathing mist or vapours.
P280: Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.
P302 + P352: IF ON SKIN: Wash with plenty of water.
P333 + P317: If skin irritation or rash occurs: Get medical help.
P370 + P378: In case of fire: Use dry sand, dry chemical or alcohol-resistant foam to extinguish.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical characterization	:	essential oil
Molecular formula	:	UVCB
Molecular weight	:	152 g/mol
CAS-No.	:	84455-19-6, 8015-62-1

4. FIRST AID MEASURES

General advice	:	Take Hazard and Precautionary phrases (section 2) into account.
Inhalation	:	Remove from exposure site to fresh air and keep at rest. Obtain medical advice.
Skin contact	:	Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.
Eye contact	:	Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.
Ingestion	:	Rinse mouth with water and obtain medical advice.
Workplace facilities required	:	Where appropriate, use closed systems to transfer and process this material. If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant.

Notes to physician

Symptoms	:	No information available.
Risks	:	Causes mild skin irritation. May cause an allergic skin reaction.
Treatment	:	Treat symptomatically.

5. FIREFIGHTING MEASURES

Suitable extinguishing media	:	Carbondioxide, dry chemical, foam.
Unsuitable extinguishing media	:	Do not use a direct waterjet on burning material.
Specific hazards during firefighting	:	Water may be ineffective.
Special protective equipment for	:	Wear self-contained breathing apparatus for firefighting if

Telephone: +33492424344 Telefax: +33493704326

firefighters		necessary.
Further information	:	Standard procedure for chemical fires.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	:	Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.
Environmental precautions	:	Keep away from drains, surface- and groundwater and soil.
Methods for cleaning up	:	Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

7. HANDLING AND STORAGE

Handling

Advice on safe handling	:	Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use. If appropriate, procedures used during the handling of this material should also be used when cleaning equipment or removing residual chemicals from tanks or other containers, especially when steam or hot water is used, as this may increase vapor concentrations in the workplace air. Where chemicals are openly handled, access should be restricted to properly trained employees. Keep all heated processes at the lowest necessary temperature in order to minimize emissions of volatile chemicals into the air. For personal protection see section 8.
Advice on protection against fire and explosion	:	Keep away from ignition sources and naked flame.

Storage

Requirements for storage areas and containers	:	Store in a cool, dry, ventilated area away from heat sources. Keep containers upright and tightly closed when not in use.
Other data	:	Stable under normal conditions.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Verify if the substances declared in section 3 have relevant national exposure limits.

Appropriate engineering controls

Where appropriate, use closed systems to transfer and process this material.
If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant.

Personal protective equipment

Respiratory protection	:	Use local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured. In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures. No respiratory protection is required during normal operations in a workplace where engineering controls such as adequate ventilation, etc. are sufficient. If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used: a)while engineering controls and appropriate safe work practices and/or procedures are being implemented; or b)during short term maintenance procedures when engineering controls are not in normal operation or are not sufficient; or c)if normal operational workplace vapor concentration in the air is increased due to heat ; d)during emergencies; or e)if engineering controls and operational practices are not sufficient to reduce airborne concentrations below an established occupational exposure limit.
Hand protection	:	Avoid skin contact. Use chemically resistant gloves.
Eye/face protection	:	Use tight-fitting goggles, face shield or safety glasses with side shields if eye contact might occur.
Skin and body protection	:	Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.
Protective measures	:	To the extent deemed appropriate, implement pre-placement and regularly scheduled ascertainment of symptoms and spirometry testing of lung function for workers who are regularly exposed to this material. To the extent deemed appropriate, use an experienced air sampling expert to identify and measure volatile chemicals that could be present in the workplace air to determine potential exposures and to ensure the continuing effectiveness of engineering controls and

Telephone: +33492424344 Telefax: +33493704326

operational practices to minimize exposure.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Physical state	:	liquid
Colour	:	pale yellow
Odour	:	conforms to standard

Safety data

Flash point	:	85 °C
Vapour pressure	:	0.01 hPa at 20 °C Note: Calculated

10. STABILITY AND REACTIVITY

Conditions to avoid	:	Remarks: Direct sources of heat.
Hazardous decomposition products	:	Note: Carbon monoxide and unidentified organic compounds may be formed during combustion.
Hazardous reactions	:	Presents no significant reactivity hazard, by itself or in contact with water. Avoid contact with strong acids, alkali or oxidizing agents.

11. TOXICOLOGICAL INFORMATION

Acute oral toxicity	:	LD50 (Rat) = > 5,000 mg/kg

12. ECOLOGICAL INFORMATION

Elimination information (persistence and degradability)

Biodegradability	:	Readily biodegradable.

Ecotoxicity effects

13. DISPOSAL CONSIDERATIONS

Product	:	Disposal together with normal waste is not allowed. Special disposal required according to local regulations.

14. TRANSPORT INFORMATION

IATA

UN number	:	3082
Description of the goods	:	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID,

Telephone: +33492424344 Telefax: +33493704326

		N.O.S. (FARNESOL)
Labels	:	9
Packing group	:	III

IMDG

UN number	:	3082
Description of the goods	:	ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (FARNESOL)
Labels	:	9
Packing group	:	III
Marine pollutant	:	yes (FARNESOL)

15. REGULATORY INFORMATION

Additional Info : Not a hazardous substance or mixture according to EC-directives 67/548/EEC or 1999/45/EC.

HMIS Classification : Health hazard: 1
Chronic Health Hazard: /
Flammability: 2
Physical and chemical hazards: 0

16. OTHER INFORMATION

Further information

In December 2003, the National Institute for Occupational Safety and Health ("NIOSH") published an Alert on preventing lung disease in workers who use or make flavorings [NIOSH Publication Number 2004-110].
In August 2004, the United States Flavor and Extract Manufacturers Association (FEMA) issued a report entitled "Respiratory Safety in the Flavor Manufacturing Workplace".
Both of these reports provide recommendations for reducing employee exposure and for medical surveillance in the workplace. The recommendations in these reports are generally applicable to the use of any chemical in the workplace and you are strongly urged to review both of these reports.
The report published by FEMA also contains a list of "high priority" chemicals. If any of these chemicals are present in this product at a concentration >= 1.0% due to an intentional addition by IFF, the chemical(s) will be identified in this safety data sheet.

The information in this safety data sheet is based on the properties of the material known to us at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances under which it is packaged, stored or applied in the workplace. For such a safety assessment we hold no responsibility. This document is not intended for quality assurance purposes.
